Dear Friend of Safe Boating Week,

The Greater Huntington Boating Council was founded in 1985 to promote and protect recreational boating for all of our twenty-one-member organizations and surrounding community. After a tragic accident on the water in 2012, our organization stepped up to protect the safety of our membership and all regional boaters by lobbying state law makers to make boater education mandatory state-wide. This was not easily accomplished as there was much push-back from special interest groups. We forged on and presented the first ever Huntington Safe Boating Week to educate members, friends and families throughout our region.

A week of cost-free classes and events has been offered each year since 2012, along with an outstanding Waterfront Festival with live music and crafts for everyone to enjoy.

COVID 19 interrupted our schedule for the last three years but we continued to present free classes. We are announcing the return of the Waterfront Festival and our popular Meet the Commodores Event for 2023.

We rely on the cooperation of the Town of Huntington, Coast Guard Auxiliary and Power Squadron to assist in this remarkable and highly successful week. We offer vessel safety inspection, the NYS Eight Hour Safe Boating Course (now mandated by law), a fabulous day on the water at our festival and a full line up of classes covering emergencies on board and safe boating practices. Many hundreds of new and experienced boaters have been educated since Safe Boating Week began.

This is only possible with the sponsorship of local businesses and individuals. We sincerely welcome your support of our mission and hope that we can count on you this year.

The attached rate sheet outlines the sponsorship opportunities and benefits.

Please contact me or fill out the enclosed form soon. We offer your organization or business high visibility in an ever- growing maritime market in one of the largest boating areas in the country.

Looking forward to your support,

Jackie Martin
Executive Officer- Event Organizer
